Chabad Capital Campaign

A Capital Campaign has been established to double Chabad's existing space allowing us to continue serving the Jewish community for the future.

Seven years ago we inaugurated our beautiful Chabad center on Jean Talon serving the Town of Mount Royal and larger Montreal Jewish community.

The center had quickly become a success, housing many programs and events. Due to the success we have outgrown our current premises and need more space to continue our current programs and expand our services to the community.

We have worked closely with our architect Cohen & Ruben Architects and designer IDX Design to expand on what we have already built and complete our center.

Chabad is supported solely through your contribution, as an individual who values the service we provide to ensure a bright Jewish future and continuity by creating a welcoming center for all Jews from all backgrounds.

There are several Dedication opportunities along with our Jerusalem wall of partners.

Your financial commitment to support the campaign is much appreciated and will be a shining example for our community and for future generations.

Partner with us by providing the financial support we need to develop our center and it's growth.

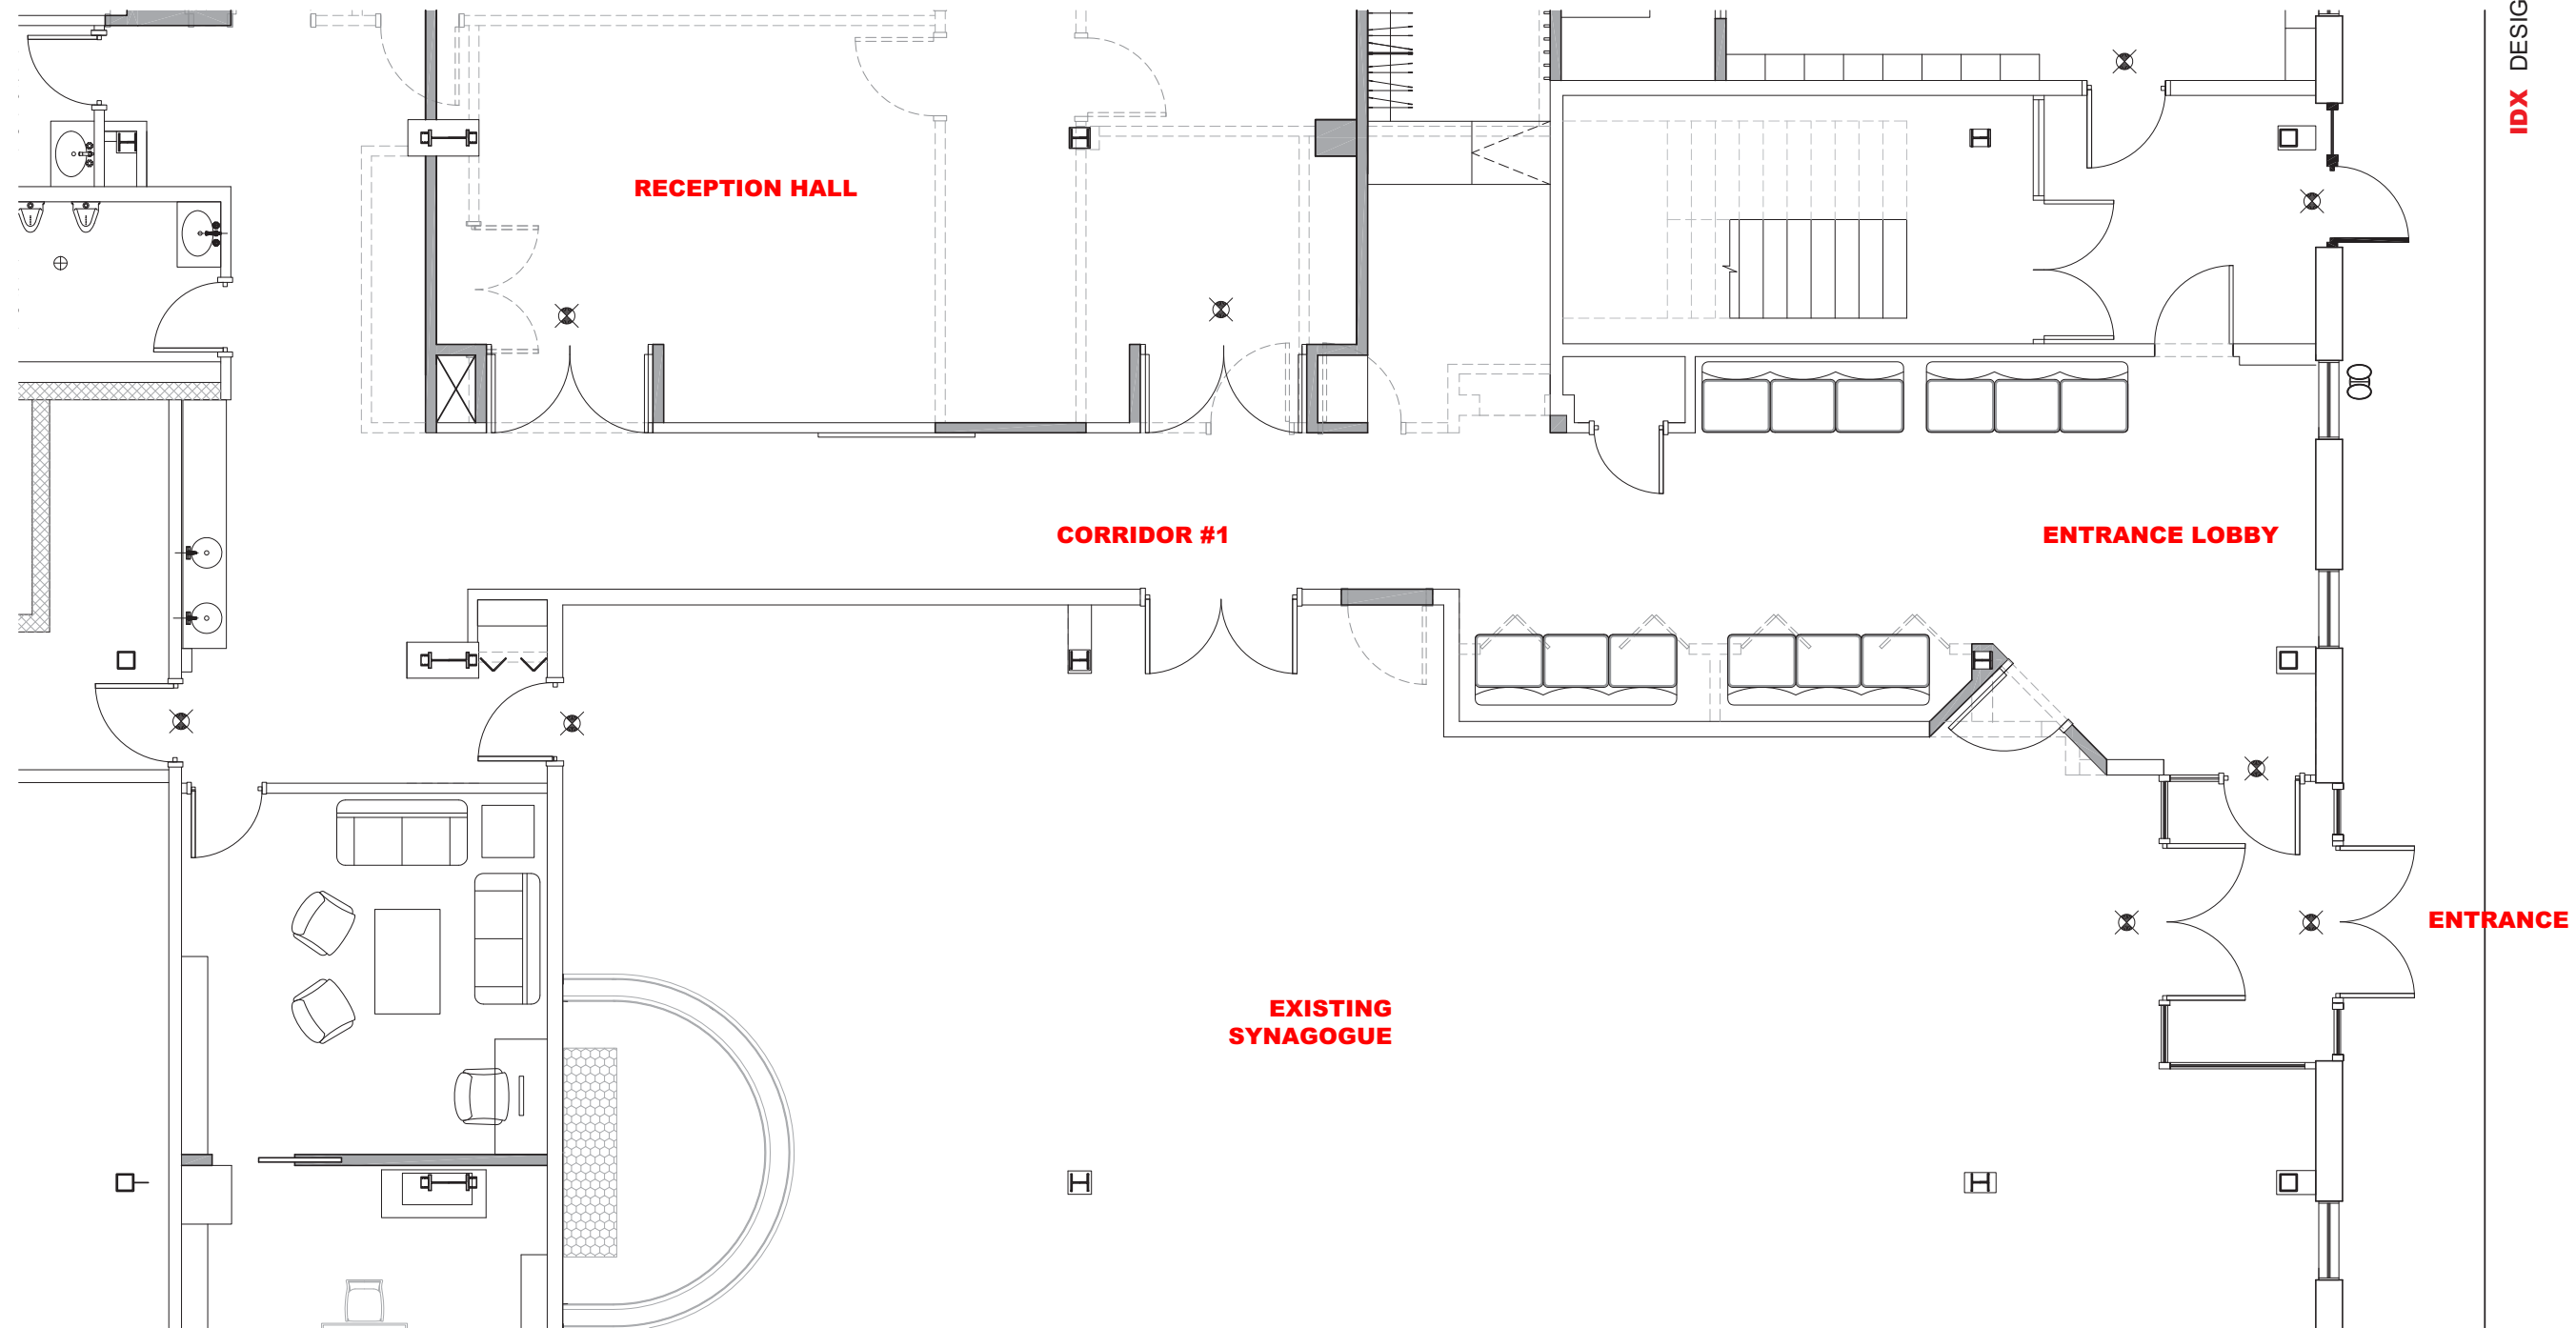

Sincerely,

Rabbi Moshe & Dina Krasnanski
